Conservation Officers Seek Information On Cache Bull Elk

October 20, 2011

Cache County-

Two dead trophy bull elk were recently reported to conservation officers with the Utah Division of Wildlife Resources. Both animals were located on the Uinta-Wasatch-Cache National Forest. One elk was located in the North Cache limited entry bull elk hunting unit, along the White Pine Creek drainage near Red Banks in Logan Canyon. The other was located in the South Cache limited entry bull elk hunting unit, near Nebeker Spring and Mill Hollow. Both elk had been shot.

Wildlife officers hope that individuals with information regarding the killing of these animals will contact the Utah Turn in a Poacher Hotline, at 800-662-3337. Rewards are available in the event of a successful prosecution of those responsible.
